

ericksons LLP would like to advise our clients and staff that we are committed to protecting your health and safety during the current viral outbreak.

To that end, we have implemented policies regarding maintaining healthy boundaries and workspaces. We are also limiting the need to meet and interact face-to-face as much as we are able, all while still providing the expeditious and professional service you require.

For clients who must attend our office, we have measures in place to protect your health and the health of our staff and partners, including sanitizing surfaces within and without the meeting space and maintaining appropriate distance between persons. We are also asking our Team Members to limit their travel and have put in place measures for people that have traveled to reduce their, and your, risk of exposure.

Should you wish to discuss these measures in more detail, please do not hesitate to contact our office and we will be pleased to advise you.

For more information regarding what you can do to prevent the spread of this and other illness, please visit the following sites:
